Objectives

- Understanding Firearm Owners – Explore who firearm owners are, common reasons for ownership, and how culture, identity, and personal experiences shape perspectives around firearms.
- Basic Pistol & Live-Fire Experience – Learn firearm safety fundamentals and gain hands-on experience with firearms under the guidance of certified instructors. No prior firearm experience is required.
- Clinician-Focused Applications – Develop practical skills for discussing firearm ownership, safety planning, suicide prevention, and risk assessment using a respectful, nonjudgmental, and culturally competent approach.
